

## Assignment #23

### Science books for the public: A discussion

Tell us about the book you read, beginning with the title, author, publisher and publication year, and number of pages. Also include:

- What you found most interesting or noteworthy about the content of the book.
- Some observations about the way the book is shaped and written—include at least one quote.
- Would you recommend the book to classmates, or to some subset of them?

Plan to speak for 3 minutes about your book—you may speak from notes—and take questions for 2 minutes. If you have the book, bring it with you.
