

Breach

Small breach \rightarrow demand a cure & you get it
big (material) breach \rightarrow can walk away

Damages

if you are the company that was wronged & there was a big breach or a small breach that wasn't cured company can sue for damages

damages are usually money vs. specific performance \rightarrow combination of contract ok for one-off trans

Lost profits - only for products not already compensated for
- reasonable certainty of sale

duty to mitigate \rightarrow must try to make the situation better
reasonable effort eg. landlord & renters

Number to get - more damages as to that

↑ expectation damages - benefit of the deal, hard to calculate

reliance damages - cost of putting together the deal

restitution - something of value that changed hands one party passed to the other

- ① Common Law - judge ruling & theories forming
- ② Statutory/regulatory - law institute by gov't
- ③ private - contracts

patent v. trade secret
novelty not novel property protection: IP, protect investment

Jet Spray v. Compton

trade secret criteria

- ① secret
- ② value
- ③ non public

 eg. Coca-Cola formula
ethical - can't take things

Chom v. Ehrenich can't v. co. w/ idea or good.

need more info in case, when in process of devel was he?
what did he say when he asked co for R&D extension?
